

Lab 1 - Evidence Checklist

Establish the Layout Requirement from a Client Brief | LO1 | TGS-2021007827 | v13.0

File Control

- ☐ I kept restaurant-menu.indd unchanged.
- ☐ I saved my completed native file as Lab-01-Completed.indd.
- ☐ All linked assets are inside this lab folder or its subfolders.
- ☐ The file opens without an unexpected missing-font or missing-link alert.

Required Evidence

- ☐ Completed specification sheet
- ☐ Annotated audit screenshot
- ☐ Approved output decision

Acceptance Gate

- ☐ Your Specification Sheet states trim 210 x 148 mm, bleed 3 mm, artwork 216 x 154 mm, CMYK, 300 ppi, PDF/X-1a - and the InDesign rulers now read in millimetres.
- ☐ I checked for overset text, hidden objects, unintended RGB/spot colours and output settings as relevant to this lab.
- ☐ My screenshots show the full application panel and enough page context for a trainer to verify the result.

Learner Reflection

What was the most important production decision in this lab?

What would you check first if the file failed at handoff?
