

Lab 1 - Establish the Layout Requirement from a Client Brief

Topic 01: Get Started on InDesign | LO1 | TGS-2021007827 | v13.0

Interrogate a real client brief, identify what is specified and what is missing, and produce a completed Document Specification Sheet. You then set the InDesign application preferences (units in millimetres) that every subsequent lab depends on.

Start Here

1. Read [`INSTRUCTIONS.pdf`](#) or the editable [`INSTRUCTIONS.md`](#).
2. Duplicate restaurant-menu.indd as Lab-01-Working.indd.
3. Keep every supporting asset in this folder so links remain portable.
4. Use [`CHECKLIST.pdf`](#) before submitting your evidence.

Package Contents

File	Purpose
restaurant-menu.indd	Existing publication to audit against the client brief before any production work begins.
Reference.png	Visual reference for the target workflow or result
INSTRUCTIONS.md / INSTRUCTIONS.pdf	Detailed step-by-step learner guide
CHECKLIST.md / CHECKLIST.pdf	Evidence and acceptance checklist

Deliverable

A completed Document Specification Sheet (trim, bleed, slug, margins, columns, colour mode, resolution, output) signed off before any file is created, plus InDesign preferences set to millimetres.

Save the final native file as Lab-01-Completed.indd.

Reference Basis

ACP guide domain 1: purpose, audience, design plans, rights, terminology and design principles. This is supporting practice material, not a claim that this WSQ course is an Adobe certification course.
