

Lab 2 - Create the Document and Explore the InDesign Workspace

Topic 01: Get Started on InDesign | LO1 | TGS-2021007827 | v13.0

Create the flyer document from the signed-off specification, learn the Start workspace and the New Document dialog including presets and Adobe Stock templates, then build and save a custom workspace containing the panels a layout designer actually uses.

Start Here

1. Read [`INSTRUCTIONS.pdf`](#) or the editable [`INSTRUCTIONS.md`](#).
2. Duplicate parent-pages.indd as Lab-02-Working.indd.
3. Keep every supporting asset in this folder so links remain portable.
4. Use [`CHECKLIST.pdf`](#) before submitting your evidence.

Package Contents

File	Purpose
parent-pages.indd	Workspace exploration sample. Keep it open for comparison while creating Harmony_Flyer.indd from a new document.
Reference.png	Visual reference for the target workflow or result
INSTRUCTIONS.md / INSTRUCTIONS.pdf	Detailed step-by-step learner guide
CHECKLIST.md / CHECKLIST.pdf	Evidence and acceptance checklist

Deliverable

Harmony_Flyer.indd - an A5 landscape, 2-page, CMYK document with 3 mm bleed and 5 mm margins, plus a saved custom workspace named 'Publication Layout'.

Save the final native file as Lab-02-Completed.indd.

Reference Basis

ACP guide domain 2: project setup, document presets, interface and workspace navigation. This is supporting practice material, not a claim that this WSQ course is an Adobe certification course.
