

Lab 3 - Build a Parent Page with Automatic Page Numbering

Topic 01: Get Started on InDesign | LO1 | TGS-2021007827 | v13.0

Open the supplied long document, build a proper parent page carrying a running footer and an automatic page-number marker, apply it across the publication, then insert pages and change the margins - proving that the automatic numbering and Adjust Layout do the re-work for you.

Start Here

1. Read ['INSTRUCTIONS.pdf'](#) or the editable ['INSTRUCTIONS.md'](#).
2. Duplicate HP_LongDoc.indd as Lab-03-Working.indd.
3. Keep every supporting asset in this folder so links remain portable.
4. Use ['CHECKLIST.pdf'](#) before submitting your evidence.

Package Contents

File	Purpose
HP_LongDoc.indd	Long-document starter for parent pages, folios and section numbering.
parent-pages-reference.indd	Alternative parent-page exercise for comparison
Reference.png	Visual reference for the target workflow or result
INSTRUCTIONS.md / INSTRUCTIONS.pdf	Detailed step-by-step learner guide
CHECKLIST.md / CHECKLIST.pdf	Evidence and acceptance checklist

Deliverable

HP_LongDoc.indd with an A-Parent carrying an automatic folio and running footer, applied to all pages, surviving a 2-page insertion and an 18 mm margin change.

Save the final native file as Lab-03-Completed.indd.

Reference Basis

ACP guide domains 2 and 3: pages, parent pages, automatic numbering and document organisation. This is supporting practice material, not a claim that this WSQ course is an Adobe certification course.
