

Lab 4 - Set Up Grids, Guides and a Modular Column Structure

Topic 01: Get Started on InDesign | LO1 | TGS-2021007827 | v13.0

Diagnose why an unaligned page reads as untidy, then build the invisible skeleton that fixes it: a baseline grid for the type, a document grid for objects, ruler guides for specific positions, and a full modular grid created in one dialog with Layout > Create Guides.

Start Here

3. Keep every supporting asset in this folder so links remain portable.
4. Use [`CHECKLIST.pdf`](#) before submitting your evidence.
