

Lab 5 - Evidence Checklist

Create Text Frames and Import Client Copy from Word | LO2 | TGS-2021007827 | v13.0

File Control

- ☐ I kept HP_Brochure_1.indd unchanged.
- ☐ I saved my completed native file as Lab-05-Completed.indd.
- ☐ All linked assets are inside this lab folder or its subfolders.
- ☐ The file opens without an unexpected missing-font or missing-link alert.

Required Evidence

- ☐ Updated HP_Brochure_1.indd
- ☐ Import Options screenshot
- ☐ Text Frame Options screenshot

Acceptance Gate

- ☐ The mission statement sits in the left panel in the brochure's own typeface with no Calibri present in Type > Find/Replace Font, the frame shows a 3 mm inset, and the middle panel is filled with placeholder text.
- ☐ I checked for overset text, hidden objects, unintended RGB/spot colours and output settings as relevant to this lab.
- ☐ My screenshots show the full application panel and enough page context for a trainer to verify the result.

Learner Reflection

What was the most important production decision in this lab?

What would you check first if the file failed at handoff?
