

Lab 5 - Create Text Frames and Import Client Copy from Word

Topic 02: Basic InDesign Drawing Techniques | LO2 | TGS-2021007827 | v13.0

Draw and resize text frames to the brochure's column structure, then import the supplied Word file twice - once retaining its Word formatting and once discarding it - so you can see and explain the difference. You then fill the unwritten panels with placeholder text and inspect the frame's own options: inset, vertical justification and columns.

Start Here

1. Read ['INSTRUCTIONS.pdf'](#) or the editable ['INSTRUCTIONS.md'](#).
2. Duplicate HP_Brochure_1.indd as Lab-05-Working.indd.
3. Keep every supporting asset in this folder so links remain portable.
4. Use ['CHECKLIST.pdf'](#) before submitting your evidence.

Package Contents

File	Purpose
HP_Brochure_1.indd	Brochure starter with panel guides ready for imported client copy.
HP_Brochure_Mission.docx	Client mission copy
sample-text.txt	Plain-text practice copy
Reference.png	Visual reference for the target workflow or result
INSTRUCTIONS.md / INSTRUCTIONS.pdf	Detailed step-by-step learner guide
CHECKLIST.md / CHECKLIST.pdf	Evidence and acceptance checklist

Deliverable

HP_Brochure_1.indd with the client mission statement placed into a correctly sized text frame using Remove Styles and Formatting, plus the remaining panels filled with placeholder text and a 3 mm text inset applied.

Save the final native file as Lab-05-Completed.indd.

Reference Basis

ACP guide domain 4: create text frames, import text, control frame insets and preserve useful source structure. This is supporting practice material, not a claim that this WSQ course is an Adobe certification course.
