

Lab 7 - Evidence Checklist

Place Graphics, Manage Links and Control Effective Resolution | LO2 | TGS-2021007827 | v13.0

File Control

- ☐ I kept HP_Magazine_1.indd unchanged.
- ☐ I saved my completed native file as Lab-07-Completed.indd.
- ☐ All linked assets are inside this lab folder or its subfolders.
- ☐ The file opens without an unexpected missing-font or missing-link alert.

Required Evidence

- ☐ Updated HP_Magazine_1.indd
- ☐ Links panel status screenshot
- ☐ Effective-PPI audit table

Acceptance Gate

- ☐ The Links panel shows every image with an OK status, no missing or modified icons, and an effective PPI of 300 or higher for every image destined for litho print.
- ☐ I checked for overset text, hidden objects, unintended RGB/spot colours and output settings as relevant to this lab.
- ☐ My screenshots show the full application panel and enough page context for a trainer to verify the result.

Learner Reflection

What was the most important production decision in this lab?

What would you check first if the file failed at handoff?
