

Lab 7 - Place Graphics, Manage Links and Control Effective Resolution

Topic 02: Basic InDesign Drawing Techniques | LO2 | TGS-2021007827 | v13.0

Place images into existing and new frames, learn the distinction between the frame and its content, apply the five fitting options, and use the Links panel to audit every placed graphic for status, actual PPI and effective PPI. You then deliberately break a link and repair it.

Start Here

1. Read [`INSTRUCTIONS.pdf`](#) or the editable [`INSTRUCTIONS.md`](#).
2. Duplicate HP_Magazine_1.indd as Lab-07-Working.indd.
3. Keep every supporting asset in this folder so links remain portable.
4. Use [`CHECKLIST.pdf`](#) before submitting your evidence.

Package Contents

File	Purpose
HP_Magazine_1.indd	Magazine starter for placing graphics, repairing links and checking effective resolution.
text-to-image-reference.indd	Optional text-to-image and placed-graphic reference
Assets/0_0.jpg	Practice image
Assets/0_1.jpg	Practice image
Assets/0_3.jpg	Practice image
Reference.png	Visual reference for the target workflow or result
INSTRUCTIONS.md / INSTRUCTIONS.pdf	Detailed step-by-step learner guide
CHECKLIST.md / CHECKLIST.pdf	Evidence and acceptance checklist

Deliverable

HP_Magazine_1.indd with all images placed, fitted with Fill Frame Proportionally, every link showing OK status, and a documented effective-PPI check confirming 300 ppi or better on every print image.

Save the final native file as Lab-07-Completed.indd.

Reference Basis

ACP guide domain 4: place and transform graphics, fitting, link status, image resolution and non-destructive workflows. This is supporting practice material, not a claim that this WSQ course is an Adobe certification course.
