

Lab 10 - Build a Colour System with Swatches, Spot Colours and Gradients

Topic 02: Basic InDesign Drawing Techniques | LO2 | TGS-2021007827 | v13.0

Build a disciplined colour system: create and name process swatches, add a Pantone spot colour from a colour book, extract a harmonious palette from a photograph with the Colour Theme tool, create linear and radial gradients, and audit the document so no unnamed or RGB colours survive.

2. Duplicate HP_Magazine_3.indd as Lab-10-Working.indd.
