

Lab 11 - Evidence Checklist

Apply Transparency, Blending Modes and Effects for Print | LO2 | TGS-2021007827 | v13.0

File Control

- ☐ I kept HP_Magazine_3.indd unchanged.
- ☐ I saved my completed native file as Lab-11-Completed.indd.
- ☐ All linked assets are inside this lab folder or its subfolders.
- ☐ The file opens without an unexpected missing-font or missing-link alert.

Required Evidence

- ☐ Updated HP_Magazine_3.indd
- ☐ Effects panel screenshot
- ☐ Flattener Preview screenshot

Acceptance Gate

- ☐ The masthead is legible over a smoothly faded dark panel, Flattener Preview highlights no transparency crossing the spot-colour element unexpectedly, and Transparency Blend Space is set to Document CMYK.
- ☐ I checked for overset text, hidden objects, unintended RGB/spot colours and output settings as relevant to this lab.
- ☐ My screenshots show the full application panel and enough page context for a trainer to verify the result.

Learner Reflection

What was the most important production decision in this lab?

What would you check first if the file failed at handoff?
