

Lab 11 - Apply Transparency, Blending Modes and Effects for Print

Topic 02: Basic InDesign Drawing Techniques | LO2 | TGS-2021007827 | v13.0

Work through the Effects panel systematically - object, stroke, fill and text level opacity, blending modes, drop shadow, inner shadow, feather, gradient feather and bevel - then check the result with the Flattener Preview and the Separations Preview so the transparency behaves at output.
