

Lab 13 - Set Type on a Path for a Curved Masthead

Topic 03: Refine InDesign Drawings | LO3 | TGS-2021007827 | v13.0

Draw a path with the Pen and Ellipse tools, attach live editable type to it with the Type on a Path tool, then control the result properly - flipping the type inside the curve, changing the path type effect, and correcting the letter spacing that curves always distort.

Start Here

1. Read [`INSTRUCTIONS.pdf`](#) or the editable [`INSTRUCTIONS.md`](#).
2. Duplicate HP_Magazine_5.indd as Lab-13-Working.indd.
3. Keep every supporting asset in this folder so links remain portable.
4. Use [`CHECKLIST.pdf`](#) before submitting your evidence.

Package Contents

File	Purpose
HP_Magazine_5.indd	Magazine starter with a masthead area ready for editable type on a path.
Reference.png	Visual reference for the target workflow or result
INSTRUCTIONS.md / INSTRUCTIONS.pdf	Detailed step-by-step learner guide
CHECKLIST.md / CHECKLIST.pdf	Evidence and acceptance checklist

Deliverable

HP_Magazine_5.indd with a live curved strapline set on an elliptical path, correctly flipped, spaced and aligned - editable text, not outlines.

Save the final native file as Lab-13-Completed.indd.

Reference Basis

ACP guide domain 4: create and edit paths, apply text to paths and refine position and spacing. This is supporting practice material, not a claim that this WSQ course is an Adobe certification course.
