

Lab 15 - Build and Apply a House Style Set

Topic 03: Refine InDesign Drawings | LO3 | TGS-2021007827 | v13.0

Convert manually formatted text into a structured style system: build paragraph styles with Based On inheritance, character styles for local emphasis, object styles for picture frames and callout boxes, then chain the styles with Next Style so a whole article formats in one command. Finally, prove the value of the system by changing one parent style.

Start Here

1. Read ['INSTRUCTIONS.pdf'](#) or the editable ['INSTRUCTIONS.md'](#).
2. Duplicate HP_Brochure_7.indd as Lab-15-Working.indd.
3. Keep every supporting asset in this folder so links remain portable.
4. Use ['CHECKLIST.pdf'](#) before submitting your evidence.

Package Contents

File	Purpose
HP_Brochure_7.indd	Brochure starter with inconsistent manual formatting to replace with a maintainable style system.
restaurant-menu-reference.indd	Style-system comparison file
salad-bar-menu.indt	Reusable InDesign template
Reference.png	Visual reference for the target workflow or result
INSTRUCTIONS.md / INSTRUCTIONS.pdf	Detailed step-by-step learner guide
CHECKLIST.md / CHECKLIST.pdf	Evidence and acceptance checklist

Deliverable

HP_Brochure_7.indd carrying a complete house style set - Body / Body First / Heading 1 / Heading 2 / Caption paragraph styles with Based On and Next Style, two character styles, and an object style for image frames.

Save the final native file as Lab-15-Completed.indd.

Reference Basis

ACP guide domain 4: paragraph, character, object, table and cell styles plus local-override control. This is supporting practice material, not a claim that this WSQ course is an Adobe certification course.
