

Lab 19 - Preflight, Package and Export a Print-Ready PDF/X

Topic 03: Refine InDesign Drawings | LO3 | TGS-2021007827 | v13.0

Use InDesign's live Preflight to define and run a production profile, resolve every error in the Links panel, clear overset text, then package the job with fonts and links and export a PDF/X-1a file carrying 3 mm bleed and crop marks - the exact deliverable a commercial litho printer expects.

Start Here

1. Read ['INSTRUCTIONS.pdf'](#) or the editable ['INSTRUCTIONS.md'](#).
2. Duplicate travel_magazine_tutorial.indd as Lab-19-Working.indd.
3. Keep every supporting asset in this folder so links remain portable.
4. Use ['CHECKLIST.pdf'](#) before submitting your evidence.

Package Contents

File	Purpose
travel_magazine_tutorial.indd	Production file for a realistic preflight, relink, package and PDF/X handoff. Missing large raster links are intentional faults for diagnosis.
travel_magazine_tutorial.idml	Backward-compatible document copy
Reference-Output.pdf	Visual benchmark for the repaired file
Replacement Assets/map.ai	Vector map asset
Replacement Assets/0_0.jpg	Replacement raster asset
Replacement Assets/0_1.jpg	Replacement raster asset
Replacement Assets/0_3.jpg	Replacement raster asset
Reference.png	Visual reference for the target workflow or result
INSTRUCTIONS.md / INSTRUCTIONS.pdf	Detailed step-by-step learner guide
CHECKLIST.md / CHECKLIST.pdf	Evidence and acceptance checklist

Deliverable

A repaired travel-magazine package containing the .indd, IDML, Links, available Document Fonts and instructions, plus travel_magazine_PRINT.pdf exported as PDF/X-1a:2001 with 3 mm bleed and crop marks.

Save the final native file as Lab-19-Completed.indd.

Reference Basis

ACP guide domain 5: preflight, fault resolution, package, IDML/PDF inclusion and print-ready export. This is supporting practice material, not a claim that this WSQ course is an Adobe certification course.
